

Home Visits:

Welcome to our peaceful Montessori community! When parents and teachers engage in an ongoing dialogue centered on the needs of the child, parents grow and learn along with their child. Additionally, the school grows through this collaboration with the parents.

An important start to this relationship is the home visit. This provides the teacher with an environmental understanding, hopefully creating a deeper bond with the whole family as well as a developmental perspective on the child. Understanding the child's environment at home will help us to better meet your child's needs at school.

With your active participation and contributions, we all (parents, children and staff) become a peaceful community of learners who are able and willing to receive and give back. Home visits may include a tour of the child's home environment, introductions to siblings, pets, and others living within the household.

Your teacher will contact you in the first part of August to schedule this visit. In the meantime, please call the office with any questions. We look forward to an enriching partnership as the school year approaches.
